

ENVIRONMENTAL POLICY

The Aquatec Maxcon Group is committed to the management and mitigation of all environmental impacts associated with its activities. To this end, the Aquatec Maxcon Group has implemented an Environmental Management System to continuously improve its environmental performance and ensure the production of positive environmental outcomes. This Environmental Management System provides the framework to manage environmental aspects, reduce environmental impacts and aid in the prevention of pollution.

In order to meet this commitment, the Aquatec Maxcon Group will pursue the following:

- To ensure compliance with all applicable environmental legislation and other requirements,
- To reduce emissions per production unit and prevent pollution,
- To improve waste management practices,
- To reduce consumption of natural resources,
- To minimise noise and other nuisances,
- To assist in the management and protection of ecological processes,
- To continuously assess its environmental performance,
- To assist in the investigation of environmental incidents in which it is involved on operational sites,
- To assist our customers by encouraging them to use sustainable resources, and
- To make its environmental information available to interested parties.

The necessary personnel and financial resources will be allocated to assist the Aquatec Maxcon Group in meeting its environmental objectives and targets that will be reviewed as appropriate. In addition, the Group will continue to raise the levels of environmental awareness throughout its workforce and to promote this awareness to its customers and suppliers.

The Aquatec Maxcon Group is committed to operating its Environmental Management System in a manner that attains and sustains compliance to the international Environmental Management Standard ISO 14001.

Peter Ferrando, Managing Director
Aquatec Maxcon Group
